Dear Mr. Hemsworth:

Thank you for writing and providing us with information about your first aid training programs.

As you are aware, our legislation requires that day care personnel acquire first aid training. Your program as outlined appears to meet minimum requirements and it appears to be equivalent to the programs offered by St. John Ambulance and Red Cross which are recognized in this province. Therefore, we will recognize your program as meeting the requirements for first aid training for day care personnel in this province.

Sincerely,

A handwritten signature in cursive script that reads "Jane Grantmyre".
